WEDNESDAY MARCH 4, 1868.

GOOD WORKS.

It is ridiculous to imagine that an ugly man cannot have a beautiful idea, or that a hangman's offspring may not become useful members of society, yet some people have tried to prove that the *Nacional* must be ever a corrupt, treacherous, and abominable perversion of journalism, because, forsooth, the types were a present from Urquiza. We do not know the terms, services or consideration, which accompanied the transaction, if such ever took place. Nay, we should charge our colleagues with ingratitude if he vilified one who has proved a benefactor. The magnanimous philosophy of the editor breathes so little of any latent sanguinary spirit which the genius of Pago Largo or India Muerta might infuse, that we reject the idea of any fellowship but even material type and abstract principles. Again, it must be noted that the type and editor are both new, and we only wish they could produce a better impression, to save us the trouble of making their apology to the public.

There are, however, paradoxes of literature, and it is difficult to explain how the former evening paper had double the circulation of the present typographical Venus, whose virginity is unsullied by any rumour of prostitution to base purposes. Still more unaccountable is it, that a paper edited by a Doctor of Laws, whose character and moral feeling are known to our city, should count far fewer supporters than the organ of a class of foreigners, directed by two unknown adventurers, who possess neither artificial diplomas nor natural depravity. These two qualities are indispensable in an Argentine writer, according to the pistol argument of a military author, who recently proved the truth of the assertion by the code of honor.

We must conclude that the tree is known by its fruits and that an impartial public values a journal by the services it can lay claim to. If the *Nacional* has fallen into a moral decrepitude, and cannot drag out a miserable existence, though without a competitor of afternoon publication, it is because premature old age has succeeded to a season of riot and excess, leaving but a marrowless skeleton, to horrify spectators with the semblance of vitality. If, on the contrary, our infant publication has grown into the vigor of manhood, its food has been chosen from the wholesome elements of industry and reform, not from the garbage of indecent scurrility, or the venom of slander and deceit.

EDITOR'S TABLE.

An immense crowd of grumblers waited yesterday at the Post-office till the doors were opened. It was rather late, 1 p.m. when the distribution commenced, and we cannot understand why a number of hands is not put on, so as to sort the mail-bags in half an hour. We offered to lend two assistants, but, as in the case of the S. Juan mines, our aid was declined (with thanks).

The Western railway cannot be prolonged towards Mercedes until Mr. Arning escape the risk of tearing his legs with the thistles, (see *Tribuna*). In the meantime the Fandango about 2nd class tickets will be repeated at intervals, as the Directors wish for a republican equality—all travelling 1st class.

The Irish woman of caille Parque has not died, but recovered in the British Hospital from the effects of her leap. The pupil of Saffo has still two black eyes.

Our London correspondent advises us that if the Governments on this side will guarantee part of the postage money, large emigration shipments will at once be made for the Plate.

The River Plate Bank shares have risen in value. The report of Riestra's candidature for Governor was well received in England.

Messrs. Nicholson Green have received from London a small steamer of 116 tons to ply between our river-ports.

We have seen a private letter from Antwerp, in which it is stated that only 56 bales have been sold since the sailing of last packet. The following are the quotations—

Merino 2f
Mestiza, 1st, 1.90 to 2f
" 2d, 1.70 to 1.90
" 3d, 1.75

On the 10th February, there was to be an auction of 5800 bales, the majority of which were from Buenos Aires.

In London there are nearly 50,000 bales colonial wools.

MONTEVIDEO.

From our Correspondent.

The Camara de Representantes has been open since 12th Feb. *Prospectos* are preparing in haste, as yet only a few articles have been sanctioned of the new *Ley de Imprenta*. The editors are getting alarmed at the new price of fines; they vary from 25$ to 4000.

The great reforms to be introduced are, 1st, the new postal Law single letter (or 1½ ounce) only to be 2 cents for the interior and 3 cents for ultramar. This will prove very beneficial to the country. 2 cents is half the price in Buenos Ayres;—here the price is at present for a letter to B, Ayres 12 cts.

The next *Prospecto* is the abolition of passports.

The Spanish population here have got very indignant at Sr. Vaques Sagastume's speech in the *Camara*. The orator said that passports had been abolished in every quarter of the globe, *aun en España, la nacion mas atrasada del mundo*. Several articles have been written by Spaniards trying to prove that Spain is not more *atrasada* than the rest of the powers in Europe.

Miss Kate Ormond's benefit came off with great success. Mr. Duverna's is announced for Tuesday. Tourniere has not had any accident happened him, as we said in one of our late numbers.

NOBLE VISITORS—In the list of passengers we perceive the Duke of San Fernando. It is incorrect to suppose he has anything to do with our N. railway, although a punster has circulated the rumor that the Marquis of Olivos is expected by next mail.

ACCIDENT—The family of a German merchant of this city have lost a child of five or six years of age.

They were driving in a carriage near Palermo and the boy fell out, hurting himself severely and died shortly after.

PAPER MONEY.—To-day the sum of 1,836,000 dollars currency will be burnt at the Bank of the Province, on account of the amortizement of the emisions of 1859 and 61

NEW COMPANY.—The Directors and members of the dancing and no obolic company. Mantelli and Ravel have arrived in our city; the rest will speedily follow and they will perform at Colón.

OUR ROSARIO COLLEAGUE.

[To the Editor.—Will you do me the favour to publish the following note in your influential paper, and oblige

Your obedient servant,

Wm Perkins.

Mr Perkins compliments the *Tribuna* for the *good taste* and *love of veracity* which induce that paper to publish the *highly respectable* correspondence which it receives from Rosario.

The well merited reputation of the *Tribuna* for national patriotism, moderation and gentlemanly feeling, is enhanced in a great degree, in the opinion of the public, by the commendable facility with which its columns are opened to the *decent* and *truthful* strictures made on the most respectable persons of Rosario,

And this facility on the part of the *Tribuna*, is still more praiseworthy, considering the highly respectable source whence it derives its interesting and impartial information.

All the friends of decency must congratulate the *Tribuna* on the charming and vernacular manner with which it takes advantage of the press, to insinuate its lessons in the peculiar style of morality and respectability, which it has made so entirely its own.

The intelligence of the mission which has brought the writer of this note to Buenos Aires is as curious and varicious as the rest of the correspondence; and it behoves the National Government to make the necessary preparations to withstand the formidable influence that will undoubtedly be brought to bear on it, in reference to the interest it has in part of the establishment in which is printed the revolutionary paper—*Ferro-carril*.

Hotel Louvre, March 3.

LOCAL EVENTS.

THEATRE—Calon at last free from the turbulent masque balls, is again in full possession of the *Spanish Dramatic Co.*

On Sunday we shall have a repetition of the Cossacks and on Thursday the drama Los Positi os.

CORDOVA RAILWAY. The amount which it is expected will be subscribed in Rosario is half a million silver dollars; the same is expected in Cordova and we think also in Buenos Ayres.

This will be about £300,000 and we believe that it will ensure in England the success of the company when it is known that such a sum has been taken here.

URQUIZA'S PARK. We always believed that Urquiza had many lances and swords in Entre Rios but we allow that we were not prepared for the following statistics given by the *Litoral* of Parana

50 bronze field pieces
20,000 muskets
30,000 lances
110,000 cannon ball,
250,000 musket do
10,000 carbines
15,000 swords

ARTESIAN WELL.—The monthly subsidy of ten thousand dollars which the Provincial Government was paying to this enterprize has been withdrawn and will be paid in future by the National Government.

NEW SENATOR—In the place of Dr. Rawson, Minister of the Interior, Dr. Saturnino Laspiur has been elected to Congress by the province of San Juan.

COLONEL SANDES.—Writes from San Luis complaining of the loss of a part of one his ribs and feels very grateful to the English Doctor Mr. Day sent to attend him by the Government of Mendoza.

He says: "I can do without the ribs I have lost from tolerable ease, and am forced to believe that I will not die by the hand of a traitor, yet I will inform you that in places like San Luis I shall not be so careless as here olare.

SPECIE. The Payon in the last trip from Rosario has brought 6313 bolivinos, 26,500 dollars currency, 7 ounces.

EUROPEAN NEWS.

ARRIVAL OF THE FRENCH PACKET.

The *Saintonge* arrived yesterday morning at daybreak, bringing full complement of passengers, cargo, and a large amount of specie. The London and River Plate Bank receives £ 0,000 sterling. The Mauá Bank £32,000. The commercial news which she brings is not of an important character. Heavy salted novillo hides were in demand a d looking up. Tallow improving. Wool without change.

The Egyptian Viceroy is dead and is succeeded by Ismael Pasha.

In England, all hope of a termination of the American war is abandoned, but the distress is greatly diminished, and the cotton market is much easier. The new elections resulted in favor of the Palmerston Ministry. The policy of non-intervention in the American war is declared, at the same time that Mr. Gibson pronounced a fierce attack on slavery.

The French Chambers were opened on the 12th January. The Emperor's address tended to mystify everybody. Not eg is explained of his intentions in Rome or Mexico. The Press states that the Imperial cabinet labours to bring about an arrangement of the American quarrel, by proposing that the belligerents, without laying down their arms, should appoint commissioners, to draw up the bases of a treaty. Among the official correspondence laid before the Chambers, the most remarkable is a letter from Earl Russell to the Pope, offering him the governor's palace in Malta, in case he would retire from Rome. In a letter of Napoleon to General Forey, he confesses a wish to prevent American influence from extending itself to Mexico. A large subsidy is about to be voted for the dotal reserve; private charity being found insufficient.

Count Bismark, in the name of King William, opened the Prussian Chambers on the 14th Jan. The address was conciliatory, but the rupture between the King and Representatives is every day approaching maturity. Austrian influence has superseded that of Prussia in the Germanic Confederation, and Francis Joseph has given all constitutional rights to all his states, except Hungary and Croatia.

FRANCE & THE EGYPTIAN REGIMENT.

Paris Jan. 23.—The *Moniteur* says, the English press has given vent conjectures upon the despatch a of battalion of Egyptian troops to Mexico experience having proved that negroes are not subject to yellow fever. The Emperor has not, like England during the war in India, requested permission to enlist soldiers in Egypt, but the temporary loan to France of a regiment of 1200 negroes. The Viceroy could only dispense with 350 men, who are destined to garrison Vera Cruz. The measure has therefore been taken in the interest of humanity, and cannot give rise to the slightest criticism.

SPAIN.

All the Ministers have resigned. Her Majesty has commissioned Marshal O'Donnell to form a new Cabinet. It is asserted that Señor Posada will replace Sr. Collantes as Minister for Foreign Affairs. Several other changes are expected.

PORTUGAL.

The Government measure creating 28 new peers has been generally received with disapprobation. A subscription has been set on foot in Lisbon to assist the distressed Lancashire operatives. The tug steamer Torre de Belem captain Louis Burney, left nging to a Glasgow company, has rescued 120 fishermen and eleven boats, which were in peril off the bar of Figueira. The tug went at the request of the Portuguese Government, which has officially testified its thanks to the captain. Dom Fernando continues firm in his refusal of the throne of Greece The late severe weather has done considerable damage to the railway works in Portugal.

GREECE.

The demonstrations in favour of Prince Alfred continue in Athens; they have been incessant from the 27th December to the present date—the first being promoted by the National Guards and others, with the late command at their head; then by the club named "National Opinion;" and, after them, by the numerous crowd of people. Each demonstration addressed Mr. Elliot through a deputation; nearly all received much the same reply. He reiterat d the gratitude of England, her good-will towards Greece, and the impossibility that Alfred could become King. These words did not discourage the Greeks. In fact one fervent patriot has proposed the departure of 2,000 Greeks to London to fetch their beloved Prince. To the last deputation presented to Mr. Elliot, the hon gentleman addressed the following words

"I thank you for the expression you have uttered, I can assure you that there is no Englishman who has not been flattered by the unanimous and free demonstration of the wish of the Hellenic nation to elect Prince Alfred as their king. It is a remarkable demonstration of a free people in favor of our Queen and the laws which we boast and of which we are justly proud. I am sorry to be compelled to reply to the question that the hopes of Greece will be disappointed. The Government of our Queen has officially declared that if the crown were to be offered to his Royal Highness it could not be accepted by him; and we can only repeat that, though we are heartily pleased at the dominant sentiment of the whole of this free people, it would be useless for them to expect a change in her resolution However, I can positively say that the same proofs of sympathy and goodwill that would have been bestowed upon you under a Prince of the Royal Family of Great Britian, will be awarded to the Hellenic nation under another Prince."—An address thanking the English Government for the projected cession of the Ionian Islands to Greece has been abandoned, as opposed to the wishes of the principal merchants of Corfu.

The *Independance Belge* has the following telegram, dated Vienna, Tuesday evening:—"Within the last twenty-four hours England has put forward the reigning Duke of Saxe Coburg as the new candidate for the throne of Greece. The Prince, having no children of his own, would adopt the eldest son of Duke Augustus of Coburg and the Duchess of Clementine D'Orleans. Prince Alfred would succeed him in the Duchy of Coburg

La France has subsequently announced that the Duke of Saxe Coburg Gotha has declined to accept the nomination.

AMERICAN ITEMS.

The Federals have destroyed nine miles of the East Tennessee and Virginia Railroad, near Knoxville. This is considered very important, as it interferes with the transportation of troops from Richmond to the West.

A fleet of iron-clad gunboats and transports has left Fortress Monroe. Its destination is unknown.

General Bank has released numerous prisoners at New Orleans, and is adopting a generally conciliatory policy.

A bill has been introduced into Congress authorising the $300,000,000 in treasury notes, and a further sum of $300,000,000 in six per cents., running one, two and three years, and of $500,000,000 twenty years, six per cent.

Governor Seymour's message to the New York Leg slature is firm for the restoration of the Union. It declares the emancipation proclamation impolitic and unconstitutional, and denounces the arbitrary arrest. The New York *Tribune* calls the message a disreputable document. The *New York Herald* and *World* approve it. The *Times* thinks the business portion of the message practical and sensible.

Governor Seymour has ordered a thorough investigation into the charge against the New York police commissioners to be made in New York at an early day.

FROM UNITED STATES

The dates from the States are to the 12th. Jan. The feelings have lost Spring field and Galveston, and in a naval engagement suffered a defeat also The far famed and celebrated Monitor is lost. The Federals, however, if unfortunate in one quarter have been very victorious elsewhere. The Union forces have tak n Cumberland Gap and also Lexington in Tennessee which is a place of considerable, importance.

Gen, Burnside h s sent in his resignation, but President Lincoln has not accepted it,

In Washington nothing of importance had occurred, except that the Finance Minister has applied for permission to issue 300 millions of dollars in Treasury notes also 300 in 6 per cent bonds at 2 and 3 years and 500 millions in bonds payable in 20 year.

In New York the greatest excite titement prevailed, owing to the Finance Minister's project. Gold had risen to 48 per cent, and exchange to 32 per cent premium.

President Lincoln's threat has at last come in force, and the Slaves in the Confederate States are declared free. The following are the States which the law affects—Arkansas, Texas Mi-sissipi, Alabama, Florida, Georgia, North and South Carolina, and part of Louisiana and Virginia. The slaves are recommended not to resort to violence, except in self-defence. The abolition party are in the ascendant in Washington, and not the slightest hope seems to exist of a compromise.

The President has at last acceded to the petition of several Union men of Western Virginia, and, although contrary to the wish of politicians, ministers, etc, the President has ordered that Western Virginia be received into the Union as a separate State.

The Union troops gained a great victory over the Confederates, in front of Murfreesboro. General Rosecrancz advanced immediately afterwards on Wickshoro, investing it both by land and sea, but, after a few days' hard fighting, the Northerns suffered a secions defeat, and retired

By telegraph we learn that France has made propositions for peace, in Washington.

Throughout the whole Union there were public demonstrations in favour of peace. It was rumoured that General Banks was defeated in the Mississipi Congress had authorised a further emission of 100,000,000 dollars in notes, which are made current by virtue of the law.

LOSS OF THE MONITOR.

We (New *York Herald*) regret to announce a serious disaster to our iron clad navy in the loss of the Monitor which foundered at sea off Cape Hatteras, on Tuesday night, while on her voyage southwards from Fortress Monroe, which place she left on the 28th ultimo. Unfortunately two officers and twelve men went down with her. An officer and twelve men of the steamer Rhode Island are also missing, probably lost in an attempt to succour the Monitor's crew, but the particulars have not reached us. It appears that she sprang a leak in a gale while in tow of the steamer Rhode Island, and that she foundered, in spite of the heroic exertions of her commander and crew to save her, aided as much as possible by the officers and crew of her convoy. There are 23 officers and men missing —some from the Monitor and some from the Rhode Island—but hopes are entertained that a portion of these have escaped in a boat belonging to the latter vessel.

MEXICO.

Dates fr m Vera Cruz are to the 24th December 5000 Frenchmen had entered Puebla, and taken possession of the place, where Ortega commanded 23,000 Mexicans. Reinforcements were daily arriving from France. The engineers and navvies are working steadily at the railroads, and the French workmen are getting acclimatised in the country.

MERCHANTS SAVING ASSISTANTUTION

ALSO FOR ALL

Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has ect ablished an

INK MANUFACTORY.

No, 50, Calle 25 de Mayo.

And is prepared to sell as good Ink, as any made in any part of the globe, and warranted to return its beautiful jet black color which it has at the moment when used, at 50 p. c less than the same can be bought at any other houses.

People under the impression, that they pay ther 820 mje. for a quart bottle of English Ink, can have the same proved, that most of the Ink sold for English, is made in this country, and imposed upon the public as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and moreover more virtuous than most of the Inks.

1.—It is of a very rich black at the moment when used.

II.—Retains its color.

III.—Runs freely off the pen.

IV.—A preserver of the eyes to those, who have much to write at night, because they need not to force their eyesight, to see what they have written.

For the reasons explained, I hope that my prejudice generally entertained against Home Manufacture will be laid aside, and all I ask is, to try the same which will be a benefit to the buyer, and the country, in assisting Home Industry.

N. B.—Orders left at the office will by punctually attended to and deliver ed free of any charges.

The great choice of patterns which he has enjoyed during his connection with Thomas Moore will enable him to give his friends of patronage, and feels he is in a position to guarantee satisfaction to all who may favour him with their orders, and to whom he has taken engagement not to serve, as he will continue to do with unremitting attention.

COLEGIO ANGLO-PORTEÑO

205—CALLE MAYO—205

This school has been established for several years, and is well known in this city.

No pains are spared to make the place of instruction attractive to the pupils, and the instruction itself profitable.

Parents are respectfully invited to visit the school, and to note carefully the monthly reports of progress and deportment.

The English, Spanish, and French languages are carefully taught by skilful instructors, and every branch of useful or ornamental education may be prosecuted in either of these languages.

Each branch and drawing are taught after school hours. Also an afternoon class for fancy work four times a week.

Day pupils can be received at any time, and a few could be accommodated as boarders or half-boarders.

Supt. Geo.
